Wizard Group

Overview of Wizard Group

Established in 1995, Wizard Group has become a leading global provider of comprehensive IT and cybersecurity solutions, serving thousands of organizations across dozens of countries

Our extensive range of services include SOC, NOC, cloud, AI & Development, and Microsoft-specialized support, catering to businesses across a diverse array of industries

Over the years, Wizard Group has grown to encompass four distinct companies, each offering unique, specialized services. Working together in a harmonious and cohesive manner, we deliver an unparalleled, all-encompassing experience for enterprises that partner with us

Our Microsoft Partnership

Wizard Group is proud of its long-standing partnership with Microsoft, a relationship that has flourished since 1995. As a Microsoft Solutions Partner with multiple specializations, we have built connections and gained insights that distinguish us from the competition. By leveraging our Microsoft expertise, we help our customers maximize their investment in Microsoft products, offering enhanced functionality and improved capabilities

At Wizard Group, we empower businesses to succeed by providing customized and cutting-edge IT solutions. Our extensive experience and robust partnership with Microsoft enable us to deliver exceptional value and support

Wizard Cyber

Managed Cybersecurity Services Partner

Wizard Cyber, a key company within the Wizard Group, specializes in managed cybersecurity services, with a particular focus on the Microsoft Security Stack. Serving enterprises around the world, our state-of-the-art global SOC infrastructure operates 24x7x365, featuring SOC's in the UK, Middle East and the USA. Our commitment to security and expertise in the field allows us to provide premium cybersecurity services tailored to your organization's needs

Our Services

Managed SOC

Our comprehensive detection and response solutions include XDR, EDR, NDR, and SOC as a Service, ensuring your enterprise is equipped to identify and respond to threats swiftly and effectively

Managed Services

Wizard Cyber offers a range of other managed services, such as managed firewalls and Managed WAF, providing the support and expertise needed to secure your IT environment

Assessment Services

Our expert team conducts cybersecurity reviews and compromise assessment services, evaluating your organization's security posture and offering actionable insights to mitigate risks

Penetration Testing

Wizard Cyber provides thorough penetration testing, covering external, internal, wireless, web applications, mobile, code reviews, and IoT. These tests identify vulnerabilities and help strengthen your organization's security defenses

Consultancy Services

Our experienced consultants offer specialized services, including Sentinel Consultancy, VCISO, Incident Response Consultancy, and Zero Trust Consultancy, providing expert guidance to help you navigate the complexities of cybersecurity

Compliance

We assist with compliance requirements for standards such as PCI, CMMC 2.0, GDPR, DPA 2018, SOC 2, ISO 27001, NIS Directive, and more, ensuring your organization meets industry-specific regulations and best practices

Wizard AI

Leading Artificial Intelligence Services Partner

Wizard AI specializes in providing advanced artificial intelligence services. Our focus is on AI-driven solutions, encompassing machine learning, data analytics, automation, and more. We assist our clients in creating innovative applications to meet their unique needs and drive transformational growth

Our Services

AI Transformation

We guide businesses through the AI transformation journey, from strategy to implementation, delivering AI-powered solutions that enhance efficiency, innovation, and sustainable growth

Robotic Process Automation (RPA)

Wizard AI develops RPA solutions to automate repetitive tasks in legacy systems, enhancing efficiency and streamlining operations

Microsoft Power Platform

With Wizard AI's expertise, leverage the Power Platform for impactful data visualization, streamlined processes, and AI-driven customer interactions. Elevate your business operations seamlessly

Consultancy

Wizard AI's experienced consultants provide strategic guidance on AI implementation, technology trends, and best practices, enabling your organization to make informed decisions and maximize the value of your AI investments

Big Data

Our big data specialists help you leverage massive data sets, implementing state-of-the-art algorithms and tools that uncover hidden patterns and opportunities, shaping a smarter business future

AI & Machine Learning

Wizard AI's team of experts design and build tailor-made AI and machine learning models to automate processes, enhance decision-making, and deliver personalized experiences, empowering your organization to stay ahead of the competition

Wizard Cloud

Comprehensive Cloud Services Partner

As a key component of the Wizard Group, Wizard Cloud specializes in providing a wide array of cloud services to meet all your security, storage, connectivity, and cloud infrastructure requirements. We offer a one-stop-shop for cloud services, assisting our customers in staying connected, collaborating with peers, securing their systems, and much more

Our Services

Cloud Management

Wizard Cloud's expert team efficiently manages your cloud infrastructure, ensuring smooth operations, improved performance, and increased reliability

Cloud Optimisation

We help optimize your cloud resources and expenditures by identifying inefficiencies, recommending improvements, and implementing cost-effective strategies

Cloud Consultancy

Our experienced consultants provide strategic guidance on cloud adoption, implementation, and best practices, empowering your organization to make informed decisions and maximize the benefits of cloud computing

Cloud Backup and Recovery

We offer robust cloud-based backup and recovery solutions, safeguarding your critical data and ensuring business continuity in the event of data loss or disaster

Cloud Migrations

Wizard Cloud's skilled team manages seamless migrations to the cloud, minimizing disruptions to your business operations and facilitating a smooth transition to a more scalable and flexible IT infrastructure

Hosting

We provide reliable and secure cloud-based hosting solutions for your applications, websites, and data, ensuring high performance, availability, and scalability tailored to your needs

Wizard IT

Complete Managed IT Solutions Partner

As a core company within the Wizard Group, Wizard IT specializes in offering fully managed IT solutions to organizations of all sizes and across any industry. Our expertise in Microsoft products, collaboration platforms, the Cloud, and more ensures that we provide the essential managed IT services your business requires. From Managed IT Support, NOC, and Infrastructure to consultancy, Wizard IT is the trusted partner you need to empower your enterprise

Our Services
